Target Groups

EDU-GATE project is targeted at:

- ◆ Higher Educational Institutions (HEIs);
- ◆ Students at HEIs;
- ◆ Students with fewer opportunities including cognitive impaired, physically impaired (deaf, blind, paralytic), and low-income students;
- ◆ Educators, including professors, teachers and lecturers at HEIs.

Activities

Multi-sectoral analysis reports and research on innovative solutions, methods, skills and best practices in digital education

The reports assess the current state of the art in digital education, with a specific focus on HEIs. The research contributes also to the identification of the current and future methodological skills, needs and tools for digital education.

Online training curriculum

The online training curriculum is based on the most innovative, user-friendly approach. It includes a methodology for development and delivery of learning contents, experiential knowledge and skills assessment tools.

Integrated online platform

The innovative and integrated EDU-GATE web platform is e-learning platform that offers digital integrated learning, multi-level cooperation and resources sharing.

Learning contents, classroom guidelines and skills assessment tools

Creating an innovative digital library with 12 multimedia e-modules of tutorial-style content. The topics include: use of educational videos and interactive platforms, creation of online assignments and quizzes, selection of online educational resources, etc.
